Education

Bachelor of Management & Commerce in Information Systems

University of Fort Hare, East London, Eastern Cape

Expected Graduation: 2025

- Relevant Coursework: Database Management, Web Development, Software Engineering, System Analysis and Design
-

Technical Skills

- **Programming Languages:** C#, HTML, CSS, SQL (MSSMS), partial knowledge of JavaScript
 - **Frameworks & Libraries:** Bootstrap
 - **Database Management:** Microsoft SQL Server Management Studio (MSSMS)
 - **Tools & IDEs:** Visual Studio, SQL Server Management Studio, Git
 - **Other:** Agile Methodologies, Problem Solving, Debugging
-

Academic Projects

Car Management System for Mall (WinForms)

Role: Developer

Technologies Used: C#, SQL (MSSMS)

Description: Developed a Windows Forms application to manage car parking and tracking within a mall. The system included functionalities for registering cars, tracking parked locations, and generating parking reports. Implemented SQL queries for efficient data management and retrieval.

Community Connect (Web Forms)

Role: Developer

Technologies Used: C#, SQL (MSSMS), HTML, CSS, JavaScript, Bootstrap, Google Fonts, Font Awesome

Description: Created a web application similar to TaskRabbit, enabling community members to showcase their skills and offer services. Utilized HTML, CSS, and Bootstrap for front-end design, with C# for server-side logic and SQL for database management. Incorporated JavaScript for form validation and dynamic content and enhanced the user interface with Google Fonts and Font Awesome for consistent typography and iconography.
